

## Cleaner

### Description

The Cleaner is a highly effective cleaner for large smooth surfaces like; metal facades, plastic, PVC, Plexiglas, solar panels, etc.

Cleaner is effective against very heavy soiling such as grease and dirt it removes dust, organic dirt, rust, oil, moss, grease, tar, black stripes, oxidative. The Cleaner is environmentally friendly and biodegradable.

### Benefits

- Effective against very strong pollution
- Friendly detergent
- 1:2 dilutable
- Leaves no streaks

### Applications

- Stainless steel
- Plexiglas
- Polyester
- Metal
- Stone

### Processing advice

We recommend the following steps for the best results:

- Shake well before use
- Before the surface should be cleaned of loose dirt and sand with a sponge and water
- Apply at a temperature higher than 12 degrees, the humidity should be below 80%
- Not for use in full sun
- Dark colours like blue, brown, red, etc. may not have surface temperatures higher than 45 degrees
- Apply by spraying
- Clean with a soft cloth, sponge or brush. If necessary, rinse with water and dry by pulling large areas with wiper
- The amount of the spray used is set to the size of the surface area and the degree of soiling. Repeat treatment if insufficient results. It can be diluted to 1:2
- Cleaner is environmentally friendly and biodegradable.
